Intemorphs and Schizomorphs

Humanoid peoples, and indeed other species, come in two basic types: intemorphic and schizomorphic. The salient difference between the two is that schizomophs have two *opposite* sexes: male and female (termed in Aristasia *mascul* and *femin*), ruled by Sai Vikhë and Sai Sushuri respectively while intemorphs have two complementary sexes: chelan and melin (colloquially termed blonde and brunette), ruled by Sai Sushuri and Sai Thamë respectively.

Both the intemorph sexes are feminine, but neither is female. Intemorph chelani and melini resemble women but are not actually women. Females (in humanoid species women) are one of the two schizomorphic sexes.

On intemorphic planes of being all species are intemorphic, so there are chelanic and melinic animals and elementals as well as humanoids.

Operation Bridgehead gives Aristasians-in-Telluria (who are biologically femins) the status of honorary intemorphs.
